# CHEMNER STORAGE

For Beautiful Kitchens

# A SPECIALIST IN EVERY CUPBOARD

A cupboard is rarely just a cupboard - certainly not in the kitchen! Fittings specifically designed to match the contents are the ideal solution. Within these pages you'll find content-specific fittings for storing pots and pans, glasses and plates, cutlery and naturally groceries! A carefully stocked and well organised pantry is the best recipe for successful cooks and for people who enjoy good food. Clever Storage is an approach which focusses on ensuring that everything has its place, your storage is well organised and it's easy for you to find and retrieve the items you want. It's the perfect combination of practical and stylish - and it saves you space and time. See for yourself!

## TALL CABINETS

In today's kitchens, high cabinets are planned either as a block or as standalone units. Either way, the result is an elegant unit, and quite often that's where you'll find the technology focus and also the central food storage in the kitchen.

## BASE CABINETS

To make smart use of the whole depth of base cabinets in the kitchen, you'll need a fitting that moves all the stored items out in front of the cabinet to give you a clear view and easy access.

## CORNER CABINETS

A corner unit is the ideal place to store pots and pans and other kitchen equipment. Our development engineers have come up with a number of solutions in addition to the classic carousel fittings.

## OVERHEAD CABINETS

Overhead cabinets play a special role in any kitchen, both because of their visual impact and from a practical point of view. They make tremendous demands - in terms of functionality and user friendliness - on the integrated lifter and parallel lift systems.

## MIDWAY SYSTEMS

Who wouldn't want to cook like an expert? A well equipped, professionally organized kitchen is a step in the right direction. It should combine practicality with stylish design.

## DRAWER ORGANISATION

Who would have thought that the inside of drawers and pull outs could be so tidy, functional and individual.

# TRUE QUALITY ONLY EMERGES FROM CONSULTING

Your professional kitchen designer is here to help you with the ideal Clever Storage application. Throughout the planning stage, they have already applied all the benefits and practicability, so that the Clever Storage application meets your exact expectations and wishes. So take time when planning as it will pay off in the future. Dream kitchens are built by people, for people.

## THE KESSEBÖHMER PRODUCT FEATURE WHAT THEY DO AND HOW YOU RECOGNISE THEM

SoftStopp, SoftStopp Plus & SoftStopp Pro provide the best combination as a high performance damping system for cabinets designed to take high loads.

- > SoftStopp dampens the closing action
- > SoftStopp Plus both dampens the closing action plus offers self-closing.
- > SoftStopp Pro adds damped opening to damped closing and self-closing.

### eTouch<sup>™</sup>

eTouch opens cupboards and new possibilities. It has never been easier and more elegant to open cupboards! A gentle push with the hand or knee against the cupboard front triggers a fully automated soft opening mechanism.

### ARENA<sup>plus</sup>

Kesseböhmer developed the special ARENA Plus coating to help items stay in place. It prevents pots, pans, crockery and groceries slipping and sliding when a pull-out is opened or a carousel is turned. All ARENA trays are supplied with the anti-slip coating.

# CONVOY PREMIO

The CONVOY Premio from Kesseböhmer offers new functionality combined with perfect movement sequences, to provide a unique experience in any kitchen.

One simple and ergonomic movement opens up the contents of the cabinet for anyone to see and access. It's infinitely flexible to organise thanks to the stepless height adjustable trays, providing full functionality across the height of the cabinet.

The Arena select tray beautiful mixes wood and metal. It starts with the basic storage tray with a low, metal edging finished in powder-coated anthracite. A solid oak FINELINE frame then fits inside the metal tray.

These Arena select trays match perfectly with the material mix and colour lines of the FINELINE MosaiQ range of organiser elements for drawers, too.

The CONVOY Centro from Kesseböhmer provides enough space to store all of your groceries with a very small footprint. A light touch moves the entire contents out in front of the unit – for a clear view from either side and very fast access.

It makes kitchen work much easier, it saves time and effort and it avoids the risk of items being forgotten at the back of the cupboard.

Together, the fridge + CONVOY Centro create a complete storage centre in a contemporary fitted kitchen.

# TANDEM PANTRY

TANDEM offers completely new potential for food storage – just opening the door is an inspiration. In a clever piece of engineering, the back shelf element moves automatically towards the user as the door is pulled open.

Kitchen users can check contents at a glance and easily reach what they want. The shelf element on the door is designed to make best use of available space.

Double the gain by installing two TANDEM units in one kitchen cabinet: to create a TANDEM Depot, suitable for 900mm, 1000mm and 1200mm wide cabinets.

The TANDEM Side allows you to have height adjustable trays on a door frame system where the weight is taken by the carcass and not the outer door. TANDEM Side also gives you the flexibility of adding YouBoxx in combination with or without the Arena Style trays. Available in two heights, for Under bench and Tall cabinets, the TANDEM Side is a versatile pantry solution.

The new building block system of the modular storage unit is based on the concept of a new back of door shelf element. Different levels of comfort, convenience and style, plus Kesseböhmer product combinations, make it possible to match cabinets perfectly to your needs, both in value and in functionality.

Developed specifically as a slim storage unit, millions of DISPENSAs have since been installed around the world. All it takes is a gentle pull for this fitting and contents to glide right out in front of the cabinet. It's easy to fetch whatever you want, or to check the contents and labels at a glance, because storage is self-oriented.

It's easy to change the height of individual trays and baskets, which are available in several strikingly attractive styles. Designed to match and enhance your chosen kitchen style.

The DISPENSA has been engineered to make maximum use of the full width and depth of the cabinet. The transparent sides, feature an exclusive, contemporary look and are designed to give you an optimal view.

DISPENSA is the highest selling larder pull-out fitting in the world. DISPENSA pull-outs are unsurpassed when it comes to German quality, smooth action, reliability and durability.

YouBoxx is an intelligent organiser system that adds value to fittings. The YouBoxx system is designed to fit not only the DISPENSA, but it is a universal system that works with DISPENSA Junior III, COMFORT II and the new TANDEM side.

Personalised storage - as a highly modular system YouBoxx allows users to configure the space inside their cabinet exactly the way it will work best for them. For example, as storage units for chopping boards or for breakfast items.

Secure and clearly organised storage - the YouBoxx elements allows users to keep cabinet contents clearly separated and stored for quick retrieval. Storing small items safely in the boxes reduces the risk of them being mislaid. Bottles and other tall items are held firmly upright by the railing. ## SLEEK MODERN & STREAMLINE

Designed and Constructed by:  
TT Cabinets & Design, Mordialloc, Victoria

This stunning kitchen filled with natural timber finishes and dark colours is a perfect example of the Anthracite colour trend that has dominated the kitchen design industry. TT cabinets have beautifully complemented the natural timber highlights over the island bench with our Natural Oak Finline cutlery inserts in their drawers. They've even included MosaiQ, Portero and the No 15 cabinet fitting to make perfect use of every inch of space to keep the bench top tidy.

The area between the worktop and the wall units is the ideal place to keep the items you use often. Stored in a well designed rail system, they also look decorative and are easy to reach from the main cooking area. With LINERO MosaiQ, Kesseböhmer offers an attractive modular system for a wide range of applications.

LINERO MosaiQ combines striking contemporary design with total practicality. It opens up new vistas for eye catching kitchen design. The LINERO MosaiQ modules fit perfectly - in style, colour and materials - with the clear lines of contemporary kitchen architecture.

As a modular system LINERO MosaiQ generates any number of alternative applications. Modules include universal shelves containers for kitchen implements, hook strips, a rail to hang a tea towel or a cooking ladel. There even is a twin roll holder with a patented tear off system, a paper roll holder, a memoboard and a magnetic knife block.

The modular system can be altered and adapted again and again in response to changing situations and requirements. And you can swap individual modules around easily.
