# IMPACT BENCHTOPS

## 24/7 QUOTING & 48 HOUR DISPATCH\*.

Quote any time of day, from anywhere knowing that when you click go, your job will be ready to dispatch Australia wide in 48 hours guaranteed.

### THE SOLUTION YOU'VE BEEN WAITING FOR.

We have developed a system for the trade that ensures you can order made to measure benchtops, in a variety of styles and finishes, without delay and with you in control of the process.

By eliminating manual quoting and ordering you can offer your clients a robust and accurate quotation, knowing that at the click of a button it will be ready to dispatch in 48 hours.\* (2 business days)

### CUT-OUTS

Our unique software tool offers you easy planning of cut outs to suit a range of sinks and appliances. Just select the sink or cooktop, enter where you want it from left or right and its setback from the front edge and we will produce the cut out during the manufacturing process.

All ready for simple installation in the factory or on site.

### WORKING WITH A CLEAR CONSCIENCE.

Sustainable thinking and action is essential for all our futures. Amongst our partners, the awareness of sustainability suitable for a healthy living environment is constantly growing. Our products are sourced and manufactured with the utmost care within the framework of a certified environmental management system.

### SAFE & SUSTAINABLE BENCHTOPS

Häfele is committed to providing you with safe and sustainable benchtop options. That is why we only work with manufacturers who can ensure us that what they make is sourced in a sustainable way looking after our planet as well as providing products that are safe to be cut and installed, giving us peace of mind that your benchtop is reliable and hygienic from start to finish and for many years to come.

All our benchtops come with a 10 year limited warranty.

## DEKTON®, THE HIGH-TECH SURFACE

Dekton® is our innovative ultra-compact surface. Its exclusive production process and sophisticated mixture of more than 20 minerals extracted from nature provide the surface with unique aesthetic and functional features.

Dekton® is changing the world of benchtops. Thanks to its mechanical features, Dekton kitchen benchtop has maximum resistance, while its maintenance is minimal. Dekton LITE™ is a benchtop solution that offers durability, lightness and easy fitting. Furthermore, you can also choose different colour combinations.

## INTRODUCING DEKTON LITE™

The first ultralight modular benchtop with high functionality and design. Its high resistance to impact, scratches and stains will leave you speechless.

We have developed Dekton LITE™ with 4mm Dekton® slabs and a unique, lightweight core, which make your benchtop a resistant and advanced work surface. This way, you can relax and focus on what matters: enjoying your kitchen. Furthermore, its non-porous surface ensures maximum hygiene.

Top resistance, durability and hygiene. Amazing, isn't it?

## High resistance to scratches, abrasion and wear

Your household utensils won't damage your Dekton LITE™, and its finish will always look as good as new.

## High resistance to stain and chemicals

Difficult stains such as wine, coffee, ink and rust will be easily removed. And the splashes and drops of everyday products, such as bleach or oven cleaners, won't damage its surface.

## Easy to cut and fit

Fitting is very simple as we remove the need for any cutting as all the fabrication is done in the factory to your specifications, including the optional cuts-outs for sinks and appliances.

## High resistance to impact

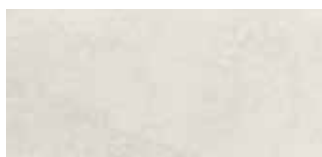

Thanks to its design, Your Dekton LITE™ benchtop, will withstand the daily wear and tear in your kitchen.

## Maximum lightness

If fitting Dekton LITE™ is easy, its transport and handling is even easier. Thanks to its light weight it can be easily handled.

# TECHNOLOGY INSIDE & OUT.

Let us tell you how we succeeded  
in creating the most technological,  
functional and durable benchtop:

Large work surfaces available in two sizes:  
3050 x 600 x 30 mm or 3050 x 900 x 30 mm (length / depth / thickness).  
Manufactured from 4mm Dekton® slabs and highly resistant to  
scratches, impact and stains.

Bevelled edge.

Perfect design integrating  
edge and surface.

Impact-resistant  
reinforced foam.

Made by Cosentino® in Spain.  
Unique 4mm ceramic slab bonded to a lightweight core - 30mm thick.  
Available in 4 colours.  
3050mm (L) x 600mm (W)  
3050mm (L) x 900mm (W)  
Dekton LITE™ - If factory edge is required, please allow 5 working days for dispatch.  
Reverse side balanced and sealed with a fibre glass coating.

# MIROSTONE SOLID SURFACES - 20MM

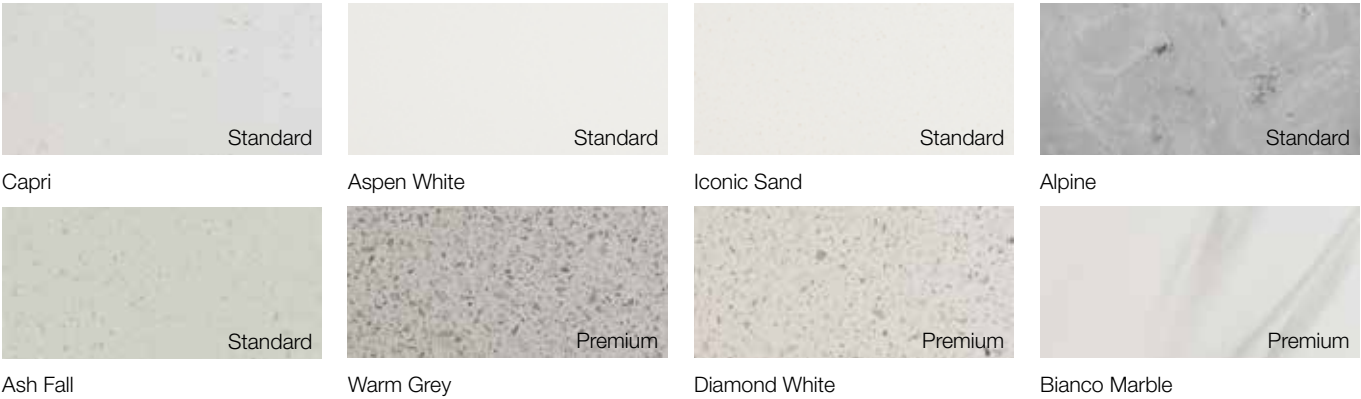

Mirostone is a range of durable solid surface benchtops that have all the beauty and feel of natural stone combined with exceptional practicality.

It is the perfect surface for domestic kitchens but equally at home in the bathroom or bedroom, and can be safely installed in your home using standard woodworking tools so therefore successfully avoids all the time consuming delays and inconvenience of other surfaces.

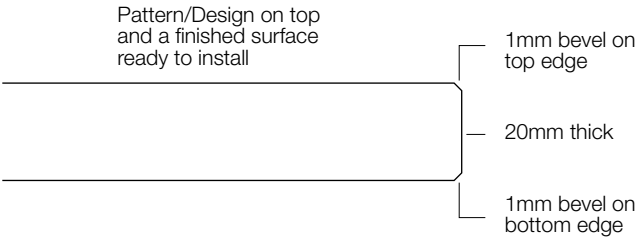

Mirostone is a modified acrylic meaning unlike stone composites and other surfaces in the market, it can be repaired and renewed with ease. It's colourful designs are not just skin deep, they run consistently throughout its 20mm thickness. So now you can have some uniquely stylish and practical work surface features.

Because Mirostone is a solid work surface with no chipboard core, it is completely waterproof and hygienic making it the perfect solid surface benchtop for your kitchens, laundries and vanities.

Mirostone is a completely safe surface on which to prepare and eat food. It's easy to clean and waterproof so harmful germs are prevented from being harboured on the surface.

## DUROPAL QUADRA - 38.6MM

Duropol Quadra benchtops are made in Germany by Pfleiderer and are a leading manufacturer of premium engineered wood products, laminates and resins. The company has operated for over 125 years with sustainability and the renewable nature of wood at its core, with a strong focus on sustainable sourcing and manufacturing, reducing carbon emissions and protecting the environment.

Duropol Quadra benchtops can be used wherever very high demands are made on surface resistance and durability. Thanks to their hygienic advantages, the classic areas of application are in modern kitchens and bathrooms, canteens and restaurants, as well as doctor's surgeries, in laboratories and shop fittings and also ideal for industrial and commercial workplaces.

The benchtops are made with particle board core type P2 to EN 312, surface bonded with highly resistant Duropol High Pressure Laminate (HPL) to EN 438, underside sealed with water repellent backing. The post formed front edge of the Quadra benchtop has a radius of 3mm, the rear edge is sealed with a protective edging strip.

Duropol High Pressure Laminate (HPL) is a decorative high-pressure laminate. It is made from several core paper layers impregnated with phenol resin, which are then pressed together under high pressure. The resulting material is very hard wearing, impact resistant, temperature resistant and easy to clean.

# COMPACT LAMINATE - 12MM

Duropol Compact benchtops are made of solid, compact high pressure laminate 12mm thick, which provides increased resistance to impact, humidity and other factors that benchtops are exposed to during everyday use.  
A thin benchtop with extraordinary properties, with its simple style it reflects the latest trends in interior design:

Extraordinary durability:

- The highest quality, durable, high pressure laminate
- Self-supporting and non-corrosive
- Water resistant throughout

Reliable functionality:

- Holds the food safety certificate
- Easy care, suitable for dry and wet cleaning
- Resistant to solvents and disinfectants
- Easy to process
- No need to seal edges

Timeless elegance:

- Exclusive and modern design

Resistant to:

- Impacts
- Hot steam
- Coffee and tea stains
- Red wine stains
- High temperatures
