

BATHROOM ACCESSORIES DESIGNER SERIES

Brought to you by Häfele

360° COMPREHENSIVE PROJECT SOLUTIONS.

HÄFELE. YOUR PARTNER RIGHT FROM THE START.

COMPETENCE IN PROJECT SUPPORT AND SERVICES.

A central pillar of this service offering is manufacturer-independent advice on architectural and furniture hardware. Häfele's project specialists are competent, solution-oriented partners for architects, builders, investors, specialists, consultants and general contractors. In addition, Häfele also offers extensive support in all phases of the project development. For example, specialised planning aids facilitate the development and implementation of electronic access control systems, lighting concepts in furniture and furnishings, as well as sliding door solutions.

The hardware store founded in 1923 by Adolf Häfele is now one of the leading international companies for furniture and architectural hardware, as well as electronic access control systems. Worldwide, more than 8,000 employees support approximately 160,000 customers in over 150 countries. The headquarters of the family-operated company is still in Nagold, Germany where it began.

Häfele supplies hardware to healthcare, hospitality and other commercial and residential markets; to cabinet manufacturers, as well as trades that support building contractors; with hardware of all famous brands, as well as fittings from its own production plants in Germany.

HOTEL MARKET PROJECT COMPETENCE.

In addition to the 360° project service, Häfele's breadth and depth of product range provides an additional basis for expertise in the hospitality sector. This leads to solutions for specific and customised concepts, even for more complex requirements: whether it concerns the hotel room door as a complete system, Dialock electronic access control or the Häfele functionality for optimised hotel furniture. Many hotel projects of a multitude of categories and with different requirements and equipment have been realised by Häfele worldwide. With targeted systems and products for hospitality, we offer standard and alternative solutions to implement your hotel concepts: everything needed for doors and everything needed for furniture.

Through our role as a valuable innovator and trendsetter, not only major hotel chains such as Accor and Hyatt are among our customers, but also family-operated private hotels or youth hostel and hostel market. Specialised staff in our project services teams provide expert support for hospitality specifiers, builders and operators. This results in buildings and rooms that make investments that are fit for the future possible in the modern hotel world.
